

Inclement Weather Policy

With the weather getting colder and snow concerns often surfacing, we want to remind the church family that our default mode when the weather is bad is to meet on Sunday mornings and not cancel church. We trust Harpeth Community family members to decide for themselves if roads and driving conditions are too dangerous. We also believe that important spiritual connections, prayer times, and decisions are made in our assemblies and they should not easily be cancelled. If you have questions about whether we will be meeting or not, check the website.

Of course with our youth program, we continue to follow the policy that if Williamson County schools are cancelled for weather, so is youth group. For other ministry meetings, classes and home group meetings, cancellation will be the decision of the leader and contact should be made directly to them – NOT the church office. For our regular Sunday morning meetings, unless an assembly is explicitly cancelled on our website, we will be gathering together on our campus.
