

April 2008

Greetings,

As you know, we have made the weekly teachings available for those that want to study deeper or share with a friend. We have heard many stories of how these teachings have impacted the lives of our members and their loved ones.

We remain dedicated to continue supplying you with the weekly teachings. We are also committed to being good stewards of our time, money and resources so we have been asking *What medium are most people using right now and will most likely be using in the next few years?* It was this process that led us from cassette tapes to CD's in May of 2003 when we saw that cassettes were no longer the desired medium of choice. We've always tried to keep our eye on what's on the horizon and what appears to be up ahead. This affords us the opportunity to continue to be relevant as well as to provide you with content in the format that's most used.

Because we are at yet another technological crossroads, once again we've taken a look at the delivery mechanism of our current content. In the last couple of years, CD sales have plummeted while four BILLION songs were downloaded from the iTunes store!

The CD Ministry has been watching this process for some time and has suggested that we offer the weekly teaching digitally via our web site. By "subscribing", the download will happen automatically when a new teaching is available. You can subscribe today by visiting [www.harpethcc.com/media](http://www.harpethcc.com/media) and selecting *Podcasting* or, if you prefer, you can just download the teachings that you want by selecting *Teachings*. The sermon notes and small group questions are also available under *Teachings*.

For those that don't have a computer or access to the internet, there is also the option of calling the church office. We would be happy to make a copy of the requested teaching in the CD format and mail to you.

As always, we value your feedback, so please feel free to call if you have any questions. Blessings!

Todd Harman  
Executive Minister
